SUMO STACKS 12 TO A PALLET

Sumo holds pride of place in the fleets of many of Australia's largest Mining, Construction, Industrial, Government and Rental Organisations. SUMO's 12 to a pallet design offers significant freight and storage footprint benefits. Up to six-fold reduction in freight costs over competitor products. SUMO is designed to be tough and reliable and deliver maximum whole of life ROI to fleet operators.

BENEFITS

- Compact and easily manoeuvred on site
- Certified lifting points and carry handles
- LED power indicator

PROUD AUSSIE

The SUMO Jumbo is proudly an Australian owned, designed and assembled product. SUMO is a reflection of the Vortex Group's belief that innovation is everything.
